The Monitor is glad to note that an Orleans county man, L. A. Hazen, of Newport, is held as one of those who have helped to make the exhibit a success.

Those who attended the boys' and girls' exposition held on the Barton fairgrounds Friday are convinced that the event was decidedly worth while. Hundreds of boys and girls were there, and nearly every one of them was there for a purpose. Most of them had something to exhibit tatoes. which was the result of personal effort. Some with fresh garden vegetables, some with works of handicraft, some with canned fruits and all with a heightened interest in "things" which make up such a large part of life. Those who conceived the plan and carried it through are to be congratulated upon the happy thought. The Monitor hopes to see the idea enlarged and become an annual event which will bring all the boys and girls of Orleans county together once each year with the result of their own individual effort along lines which most interest them.

J. G. Turnbull, president of the J. G. Turnbull company of Orleans, who has been so thoroughly lied about all over Northern Vermont in the past six weeks is perfectly justified in making a public denial of such gross ries, tomatoes, beets, beet pickle, statements as have been persistently repeated about him. He offers no apology for making a statement, and JOHN CROSIEP, Glover, potaneeds to offer none. His statement is clean-cut, to the point, complete and final. It will be found elsewhere in this issue. That anyone who pretends to know anything about the close federal control of oleomargarine, the records which must be made of its sale in quantities, and the license required to handle it any way, should take any stock whatever in the current reports about the use of this product in connection with the Turnbull creameries is strange, indeed. Whoever repeats or believes it must himself contain a yellow streak somewhere.

#### WORTH THEIR WEIGHT IN GOLD

No man can do his best when suffering from backache, rheumatic pains, swollen joints, sore muscles or other symptoms of kidney trouble. B. H. Stone 840 N. 2d St., Reading, Pa., writes "I contracted a most severe case of kidney trouble. I gradually grew worse and for months was unable to attend to business I began to use Foley Kidney Pills and soon found the pains were gone and I have had no aches since They have been worth their weight in gold to me."— Fred D. 50,000 VERMONT FOOD PLEDGES. Great Campaign Next Week. Orleans

County Expects 4000 at Least.

Vermont is expected to turn into the federal food administration a minimum of 50,000 pledge cards signed by housewives pledging themselves to a conservation of food and to follow the suggestions of the food administration so far as their circumstances will permit. The maximum enrollment in the conservation army for the state is set at 87,681 and if this figure is reached it will mean that every family in the state has committed itself to the creed, "Food will win the war." Vermont is leading the other

drive that is to be conducted during next week. County managers will make daily reports to Campaign Manager James P. Taylor at Burlington. The figures on the number of families in Vermont are based on the Unit-

states in the organizing for the great

ed States bureau of census estimates of 1917. The bureau states that the average number of persons per family for Vermont is 4.2 It is thought that the preliminary vork in Vermont has been of such a

ature that more than a minimum enistment in the conservation army may be expected. The following table sets forth the Vermont figures, based on 1917 census estimates, by
